

## **METHOD OF MAKING CORROSION-PROTECTED COAXIAL CABLE**

### **Abstract of the Disclosure**

5 The present invention is a corrosion-protected cable, a method of making a  
corrosion-inhibiting cable, and a corrosion-inhibiting composition. The corrosion-  
inhibiting composition includes a water-insoluble corrosion-inhibiting compound  
dispersed in an oil, and a stabilizer selected from the group consisting of propylene based  
glycol ethers, propylene based glycol ether acetates, ethylene based glycol ethers and  
ethylene based glycol ether acetates. The corrosion-inhibiting composition is preferably  
10 applied to the outer conductor of the coaxial cable, e.g., by wiping or by immersion, and  
heated to provide a corrosion-inhibiting coating that is not tacky or greasy.
